3.Our History

Cinematic Media was founded on 9th dec 2017 by **Manoj Vemula (screen name: Cina Prabha)** and **Akshat Singh** with one motive that is to not only create a show off social presence of clients but also help them in generating as much sales as possible.

In their vast case study they found that digital marketers especially web designers and social media marketers only create social presence but when it comes to selling many of them lack in it. So they came up with the idea of founding Cinematic Media for the solutions of all these problems facing the business owners.
